The Lasch Floral Gardens  
1932 Dahlia Plant List

Green Plants—from better varieties will be ready for shipment after May 15th or when danger of frost is past and can be set out as late as July and have wonderful blooms. These plants are strong and well-rooted, hardened off to keep right on growing and should be planted 2 inches deeper than pot level. They not only produce wonderful flowers the first year, some times the best exhibition blooms, but enables you to get the best high priced varieties at a great saving.
